About me

As an experienced Assistant Operations Manager at Deccan Web Assets Pvt Ltd, I manage daily operations, streamline processes, and support administrative functions. In addition to my management role, I am a freelance web developer with expertise in HTML, CSS & JavaScript , helping businesses build professional and responsive websites. My passion for web development and strong operational skills allow me to bring efficiency and creativity to both my managerial and freelance roles, driving success in every project I undertake.

Experience

Assistant Operation Manager
Sep 2020 - Prasent

Deccan Web Assets Pvt Ltd | Banglore (Remote)

Managing daily office operations to ensure efficiency and effectiveness, I coordinate resources, streamline processes, and implement strategies. My role includes maintaining clear communication with the main office, providing comprehensive reports on office functions to ensure alignment and support organizational goals.

Operation Staff
Jan 2018 - Sep 2020

Deccan Web Assets Pvt Ltd | Aminjikarai, Chennai

Dedicated to supporting daily operations and ensuring seamless workflow, I handle various tasks including administrative duties, process coordination, and problem-solving. My role focuses on enhancing operational efficiency and maintaining high standards across all functions to support overall business objectives.

Game QA Teaster
April 2015 - Dec 2018

Deccan Web Assets Pvt Ltd | Nungambakkam, Chennai

As a Game QA Tester, I specialize in monitoring live gaming environments to ensure seamless player experiences. My role involves identifying and reporting issues to management, ensuring that our games maintain high standards of quality. I leverage my expertise to provide insightful feedback and support the development team in delivering outstanding live gaming experiences
